1. User

1.1 Register

To be able to sign up as a customer for ShoeInc, users must select the menu option Register that it is situated on the right upper corner of the home page.

Once the user selects it, it will be redirected to the to the Registration page where the user will have to fill in the registration form.

Register	
Create a new account.	
Email	
Password	
Confirm password	
-	

The password needs to be at least 6 and maximum 100 characters long, must have at least one non alphanumeric character and must have at least one uppercase 'A'-'Z'.

Once the user will fill in with the required values and clicks the Register button, the website will confirm the registration.

ShoeInc Register Login

Register confirmation

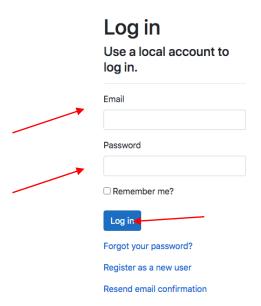

This app does not currently have a real email sender registered, see these docs for how to configure a real email sender. Normally this would be emailed: Click here to confirm your account

1.2 Log in

For the user to be able to log in, the Log in menu option needs to be clicked.

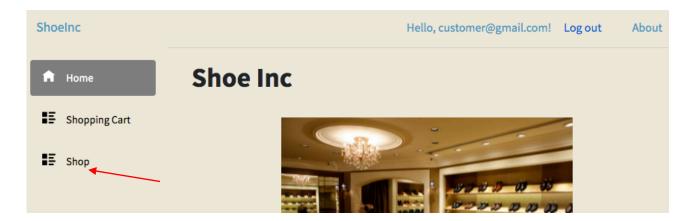

Once this action is performed, the user will be redirected to the Log in page where it will be asked to fill in the Email account and the Password. To complete the Log in process, the user will have to follow the final step to click the button Log in

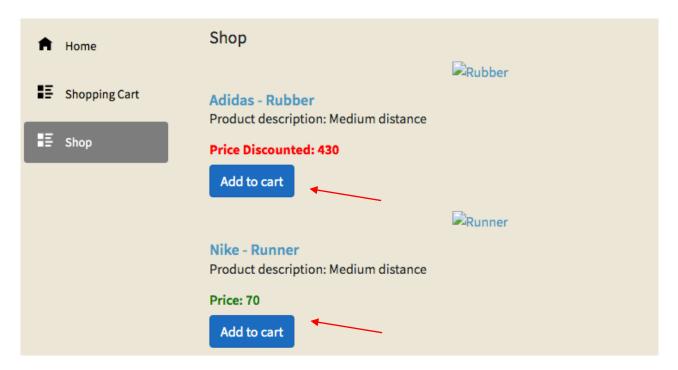

1.3 Order creation

For order creation, the user needs to click on the Shop section and it will be redirected to the shop section where the user can add to cart the desired products.

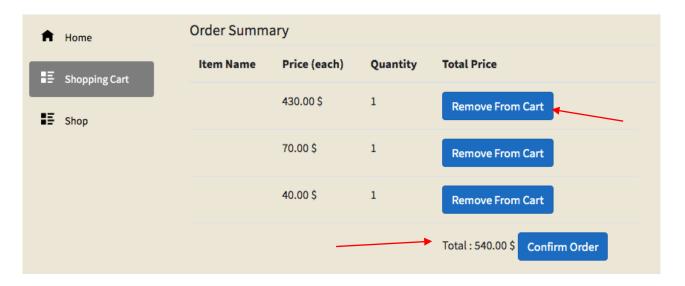

To add products to the cart, the user must click on Add to cart button. In the situation where a product is discounted, the user will be notified by that action with a red text highlighting the price of the product.

When the user has finalized his purchase, he can review his order in the shopping cart section.

In the shopping cart section the user will be able to review his order where he will be allowed to make changes. Products can be removed from the shopping cart if the user will click on the button Remove From Cart. If no changes, the user will be able to finalize his order by clicking on the Confirm Order button.

When the order will be confirmed, the user will be notified that order has been confirmed. If the user desires to create another order, it can be done by clicking on Continue Shopping button.

2. Warehouse Manager

2.1 Register

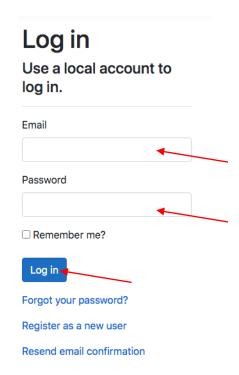

For the registration process, please refer to the assigned Technical advisor that will create your specific account to be able to view your designated sections.

2.2 Log in

For Log in process, the warehouse manager must click on the Log in menu option on the right upper corner of the home page.

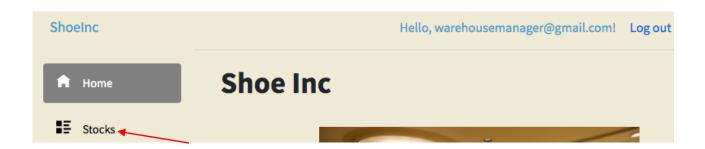

The user will be redirected to the log in page where the fields have to be filled in with the Email account and Password. To complete the process, the user must click on Log in button.

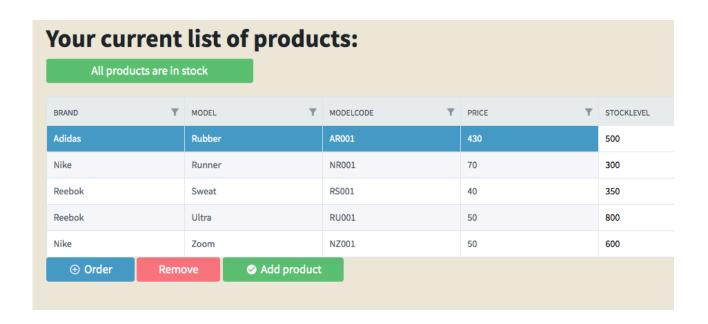

2.3 View Stocks

For the user to see the current products in the warehouse, the menu option of Stocks needs to be accessed.

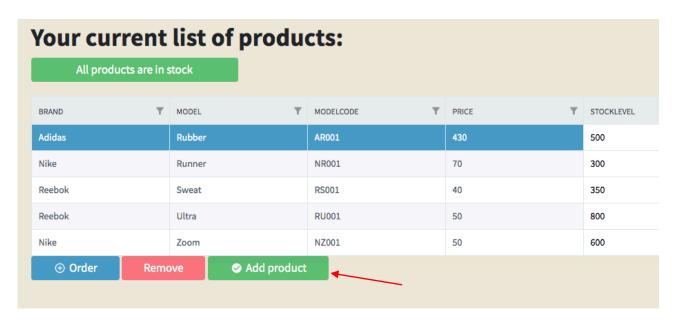

The user will be redirected to the page with current list of products that are in the warehouse. The user will be able to view the Brand, Model, Model Code, Price and Stock Level.

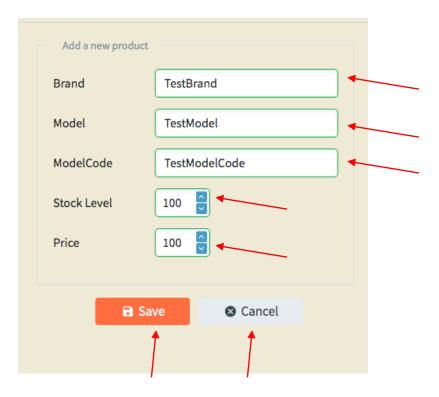

2.4 Add Product

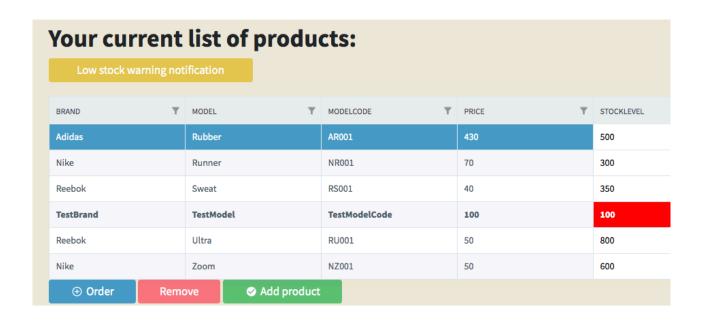

Please follow the steps from 2.3 Section. To add a new product in the warehouse, the user must click on Add product button.

Shortly, the user will be redirected to a page where product information can be added, such as: Brand, Model, ModelCode, Stock Level and Price. To complete the process the user must click on Save button. If the user decides to cancel the process, Cancel button must be clicked.

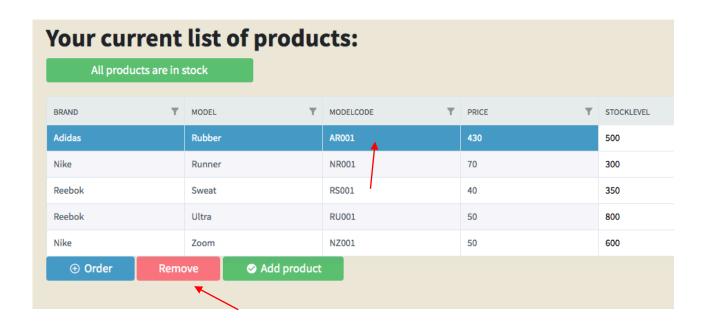

Once Save button pressed, the user will be redirect back to the current list of products in the warehouse.

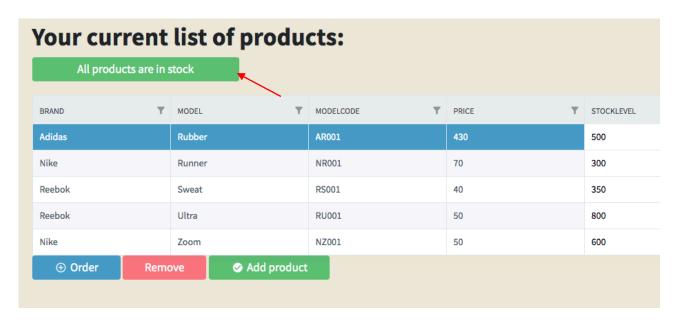

2.5 Delete Product

Please follow the steps from 2.3 Section. To delete a product the user must select a product from the list and click on Remove button. Please note that multiple selection and deletion of products is allowed. The selected product(s) will be highlighted with colour blue.

2.6 Order Product

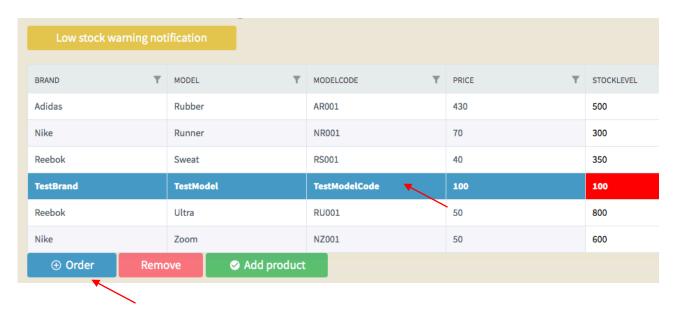

Please follow the steps from 2.3 Section. If there are no products that are in danger to be out of stock, the system will notify that all products are in stock with a green dialog on the upper part of the list.

If any products are close to be out of stock, the system will notify the user with a yellow dialog warning on the upper part of the list. The notification will occur in whenever a product is bellow 200 units in the warehouse. Additionally, the text of the product information will be bolded and the stock level cell will have a red background colour.

Low stock war	ning not	ification						
BRAND	T	MODEL	T	MODELCODE	T	PRICE	T	STOCKLEVEL
Adidas		Rubber		AR001		430		500
Nike		Runner		NR001		70		300
Reebok		Sweat		RS001		40		350
TestBrand		TestModel		TestModelCode		100	7	100
Reebok		Ultra		RU001		50		800
Nike		Zoom		NZ001		50		600

In any of the above described situations, the user is allowed to order new products. The process is done by selecting products from the list, multiple selection is allowed, and click on the Order button. Once the button is clicked, the system will order automatically 400 units. The process can be repeated until the stocks reaches the desired levels.
